This week at Heathrow Primary School:

"What have we been up to?"

On Monday, Year 3 immersed themselves in a hands-on Stone Age to Iron Age workshop. During this, they participated in lots of different activities, applying their learning of pre-historic life to drama and role-play.

They started the morning with a discussion about what they had learned in their prior history lessons, which they recalled many amazing facts! This was followed by an evolution game which saw them trying to evolve through the ages. Then, they were challenged to create small scenes re-enacting key events in the Stone Age and Iron Age, such as man learning to hunt, gather food, make fire and forge tools. A great day was had by us all in Year 3.

HARVEST

On Wednesday 30th September, we will be celebrating our Harvest Festival. At this time of year, we give thanks for produce that is grown and farmed in our country and around the world. We are asking each child, or family, to donate one item from their Autumn shopping list. Items can be brought in to school from Monday 28th September. All items will be donated to the West Drayton and Yiewsley Food Bank to support our local community.

"WHAT HAVE WE BEEN UP TO?"

On Monday, the Year 6 children visited the Tower of London to consolidate their learning of British Crime and Punishment. They really enjoyed seeing real Tudor punishments and prison cells, as well as taking part in a fascinating workshop where they heard gruesome stories of real-life Tudor crimes. The children were impeccably behaved and the staff at the tower were very impressed by their super knowledge of Crime and Punishment.

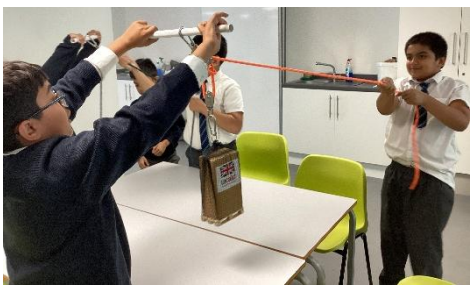

Year 5 enjoyed an exciting visit to the RAF Museum as part of their science learning on forces and mechanisms. During the trip, the children took part in a workshop on levers, pulleys and simple machines, where they explored how forces can be used to lift, move and control objects. They were introduced to key vocabulary such as effort, load, lever and fulcrum, and had the opportunity to see how engineering ideas are used in real-life contexts.

After the workshop, the children explored the museum's impressive collection of aircraft and artefacts, learning more about the history of flight and the design of different planes. The visit was a valuable opportunity for pupils to take their classroom learning beyond school and experience science and engineering in a memorable setting.
